

GRANTS AWARDED
2021 – it might be You 😊

| | | |
|--------|---|---|
| 2018 | Guy Shennan and Suzi Curtis (UK). | Balancing preferred future talk and progress talk: a preparatory study. |
| 2018 | Jaseem Koorankot & Santhosh K Rajan (India). | Change in Neuropsychological Functions by means of Solution Focused Brief Therapy: An experimental study of clients with Depressive Disorder |
| 2018 | Hans Pier Jara Iglesias (Perú). | Solution-focused classrooms in educational institutions of the city of Trujillo: outcomes of solution-focused schoolwork in contexts of psychosocial risk |
| 2017 | Jaroslav Lelonkiewicz & Alessia Tosi (PL) | Lexical convergence and therapeutic alliance in Solution-focused Brief Therapy sessions. |
| 2016 | Jaseem Koorankot, Z A Ashraf, & K.R. Santhosh, India | Effects of solution focused vs. problem focused questions in neuropsychological components and electrophysiological state |
| 2015 | Christiaan Van Woerden et al. (University of Cape Town) | "Qualitative analysis of Solution Focused Practice in History Taking by paediatric clerks and registrars". |
| 2015 | Miriam Lommen (University of Oxford) & Simon Dymond (University of Swansea) | "A pilot study of brief therapy for reducing overgeneralization of fear through solution-focused discrimination training". |
| 2014 | No grant awarded | |
| 2013 | Rytis Pakrošnis and Viktorija Cepukienė, Kauna (Lithuania). | Effectiveness of a solution-focused, computer-assisted self-help tool. |
| 2012 | Antonio Medina, Tenerife, Spain. | Solution-Focused child protection work with children at risk and their families in local public agencies in Tenerife, Spain. A quasi-experimental outcome study. |
| 2011 | Keita Kiuchi and colleagues, Japan | Seeking to develop a general solution-focused attitude scale (GSFAS) that will serve as an effective indicator to measure the effectiveness of SFBT. |
| 2011 | George Abramson, Bradford, UK | A microanalysis of Signs of Safety child protection conversations in social work. |
| 2010 | Ivana Vidakovic, Stephen M. Langer; Croatia | SFT treatment for PTSD; 20 experimental and 20 controls planned. Detailed one- year follow-up using objective measures and fidelity testing. |
| 2010 | Lehmann P, Moore B (Texas): USA | Pre-post design for 100 men convicted of domestic violence who attend a group programme. |
| 2008/9 | Marieta Igarenska, Kiril Elenski, Gergana Foreva; Plovdiv, Bulgaria | Investigating the effect of SFBT in cardiovascular disease patients. |
| 2008/9 | Janet Bavelas; Sara Healing; Christine Tomori; Canada | Microanalysis of Miracle Question. |
| 2007 | Plamen Panayotov, Bulgaria | Medication compliance in schizophrenia improved by SFT. For publication in SFT research handbook 2011. |
| 2006 | No award. | |
| 2005 | Lisbeth Kvarme, University of Bergen | An intervention study in the school health service to find out if solution-focused therapy contributes to strengthen self-efficacy and quality of life of pupils who have been exposed to bullying. Three journal articles published. |
| 2005 | Steve Myers, Manchester, UK | Study of treatment for juvenile sexual offenders. |

| | | |
|------|---------------------------------------|---|
| 2004 | Frederic Linssen, Bielefeld, Germany, | A study of a large number of SFTP-clients using pre-test, post-test, and one year follow-up, including measures of satisfaction with therapy. Design similar to EBTA protocol; using different measures. Results presented at a conference in Berlin. |
| 2003 | No award. | |
| 2002 | Elka Bozhkova of Bulgaria | Include EBTA multi-centre research design within a larger study of SFT on a cohort of clients in a psychiatric rehabilitation service. Project showed greater benefit from SFT with or without medication than medication alone or medication plus psycho-educational group therapy. Bozhkova E (2011) Psychology - Theory and Practice 3: 85-95 (Bulgarian; abstract in English). (Also reported in Macdonald 2011). |
| 2001 | Karin Wallgren Thorslund, Stockholm. | A randomised controlled trial of group SFT for chronic sick persons in Sweden in order to return them to work. Published 2007. |
